

Safe Operation

Safe: Setting the user code

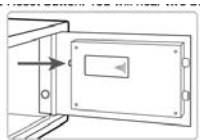

1. Enter your room number and # symbol
2. With the door open, press the Reset button. You will hear two beeps.

3. Input the new code (3-8 digits) on the keypad, then press the # button to confirm. If the confirm light turns on, the reset is accepted. If the warning light flashes, the code reset is not accepted and you need to try again.
4. Before you close the door, try the new code to make sure it works.
5. Please leave door open when checking out.
